HAPPY VALENTINE'S DAY

14-02-2025

FIRST PHOTO

The memory of our first photo together is still incredibly clear: the time, the place, the exact sequence of events. It was after the Ms. and Mr. Intramurals coronation, and I was already preparing to leave. Then, my name was called, and a jolt of surprise surged through me. I was called for this photo! My heart beats faster than usual. A strange mix of excitement and shyness washed over me. Should I smile? What if I looked awkward? What if my hair is messy? What if I don't look good?, there are so many what ifs, but one thing for sure in that very moment, I AM HAPPY.

FIRST VALENTINE'S

Our first Valentine's Day was unforgettable. I surprised you with a flower balloon, and the look of pure joy on your face made my heart melt. We spent the day simply being together, laughing, talking, and enjoying each other's company. It was a reminder that the most romantic gestures often come from the heart and don't require grand plans or elaborate dinners. The memory of your delighted reaction to the flower balloon will forever hold a special place in my heart.

FAVORITE SPOT

Folksart has become our special place. It's where we go to escape the noise of the world and truly connect. We wander through the trees, hand-in-hand, sharing our thoughts and feelings.

FAVORITE BONDING: CUDDLING

Cuddling with you is the best. It's more than just being close; it's like a special language we share. Whether we're spooning in bed watching a movie, holding hands, or just close together, I feel so peaceful and safe. In those quiet moments, with your warmth around me, I feel truly loved and understood. Being held by you brings me comfort, happiness, and a love that's deeper than words.
